**Comments and Recommendations:** :  
This agent received the case in transfer in January 2022. It had been previously noted that Mr. Blackman was to submit to polygraphs and he had previously had computer monitoring. This agent followed suit and had Mr. Blackman submit to a polygraph on April 20, 2023. He struggled with a question pertaining to whether or not he had accessed Social Media. This was the second time this was an issue for Mr. Blackman so this agent informed him that she would be imposing computer monitoring. A referral was made and it was determined that there is not an actual condition for computer monitoring on the probation order.  
This agent would be requesting that a condition for computer monitoring be imposed to verify compliance with the condition of no social media and no pornography.  
This report is being submitted for whatever action the court deems appropriate.
